

*Grab spheres, group them  
and clear the well!*

Ball Fighter is a puzzle game where you take aim and blast groups of dropping spheres to create matches and clear the board. You can make chains to receive additional points or to make a game more difficult for an opponent. Special bonuses like a Brush, a Rocket Launcher or a Bomb can be found on a board.

Try also variety of modes (Arcade, Survival, Brain Breaker, Player vs CPU) for a Single-player and the unique Multi-player mode played on one console!

*Multi-player game  
on one device!*

## FEATURES

- ☺ addicting game-play based on simple and fun rules
- ☺ special weapons (Rocket Launcher, Brush, Bomb)
- ☺ lots of Single-Player modes (Arcade, Survival, Brain Breaker, Player vs CPU)
- ☺ multi-player on one Nintendo DSi™ device

# RULES

## Destroy spheres

Remove a specified amount of colorful spheres before they reach the bottom of the well.

## Collect 3 or more spheres

Catch spheres and throw them back to the well. Connect at least 3 of the same color vertically - they will explode and disappear. You can hold several spheres at the same time.

## Make combos

Besides standard spheres removal you can make combos. The combo is made if you remove more than 2 sphere chains fast, one after another.

## Use special bonuses

When playing, you can encounter 3 bonus types:

-  **Rocket** - launches 3 rockets hitting random spheres.
-  **Bomb** - destroys everything in a 3x3 square around a hit place.
-  **Brush** - paints spheres on its way until reaches the top of the well.

# INTERFACE

Points gathered by a player

Special bonus ready to use (push L or R button to throw it)

Amount of spheres held at the moment

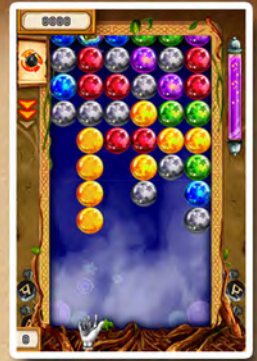

Combo bar

When all arrows are highlighted, spheres will drop down

## MODES

### Arcade

A single-player game. Destroy specified amount of spheres and advance to the next level. A greater number of spheres to be removed, a higher speed of falling spheres and more colors of spheres make it more and more challenging.

### Survival

A single-player game. Stay in a game as long as you can while spheres are dropping faster and faster.

### Brain Breaker

A split-screen mode. Use both screens simultaneously. Remove spheres from both wells, but pay attention to keep them in balance. Otherwise you will lose quickly when spheres reach the bottom of one of the wells.

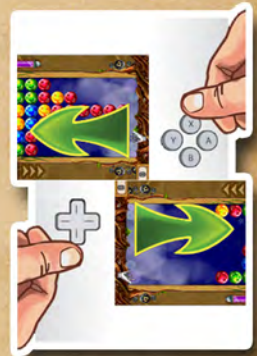

### Player vs CPU

A split-screen mode. Removed spheres are added to the opponent's well. You win when it gets full.

### Player vs Player

A split-screen mode following the same rules as the Player vs CPU mode, but with a human opponent instead of A.I.

No. of players: **1-2 players**
